

Cabling Solutions for Residential and Commercial Landmarks

Long Life

Greater Safety

**Uniform Insulation
to Avoid Short Circuits**

**Superior
German Quality**

SALIENT FEATURES

- LOI>29% as per ASTM 2863D
- Flame Retardant as per IEC 60332.1
- Special type FR-PVC compound
- Single core 1100 voltage as per IS 694 for residential applications
- Available in 1.0,1.5,2.5,4.0,6.0 sq mm crosssections & standard colours
- Other sizes/colours available against requests

ADVANTAGES

- Long life of wire due to low conductor resistance.
Low heat development
- High conductivity as well as drawability
- Restricts flame propagation in the event of a fire hazard
- Prevents short circuits due to high insulation resistance
and low leakage current
- Forms close loop during application

APPLICATION

- Used for internal wiring, installation in conduits

LAPP RANGE OF PRODUCTS

- Flexible cables and wires
- Halogen-free cables
- Lift & conveyor cables
- Cat 6 & RG 6 cables
- Fire survival cables
- Cables and leads for fixed installation
- Data cables
