Schneider Electric

About Schneider Electric

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in energy and infrastructure, industrial processes, building automation, and data centres/networks, as well as a broad presence in residential applications. Focused on making energy safe, reliable, and efficient, the company's 114,000 employees achieved sales of more than 18.3 billion euros in 2008, through an active commitment to help individuals and organisations "make the most of their energy™".

170 Years of Virtuosity

- 1838 : The Schneider brothers acquire the Creusot foundries and create Schneider & Cie, quickly establishing themselves as 'The Masters of Steel'.
- 1891 : Schneider recognizes the huge potential of electricity and moves into this emerging market.
- 1918-1944 : The company completely reorganises itself and begins focusing on construction, electricity and iron and steel works.
- 1981-1997 : Schneider maintains its focus on the electricity market via the strategic acquisitions of Telemecanique in 1988, Square D in 1991 and Merlin Gerin in 1992.
- 1999 : The company is rebranded as Schneider Electric, further underlining its status as a world leader in energy management.
- 2003-2007 : Schneider Electric consolidates its leadership in energy management following the strategic acquisitions of Clipsal, TAC and APC.
- 2007 : The first-ever Schneider Electric-branded product is launched.

New Leadership with a Rich Heritage

Schneider Electric's Installation Systems & Control Division (IS&C) is distinguished by its long and illustrious heritage in the electrical and Datacomm industry.

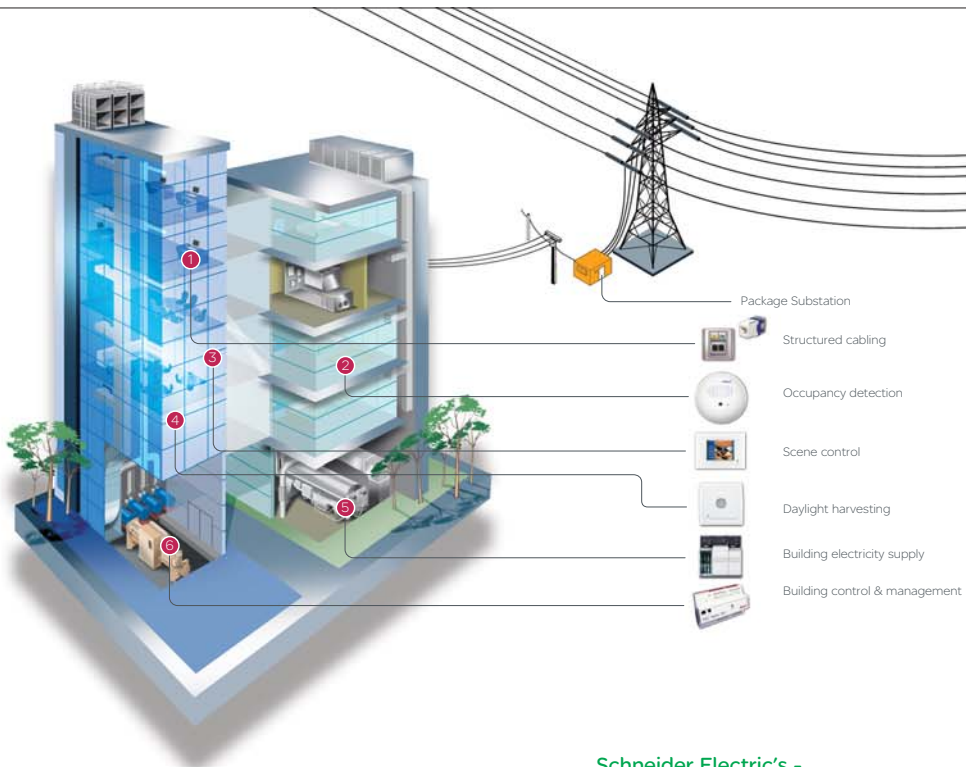

The parent company of many top-notch brands, IS&C continues to provide solutions that represent the ultimate in lifestyle convenience and innovation for homes, hotels and offices. Specific examples include award-winning products and technologies covering building and home control, structured cabling, and designer switches and sockets. They help the finest architectures around the world to achieve more with less.

IS&C's extensive portfolio of leading brands includes:

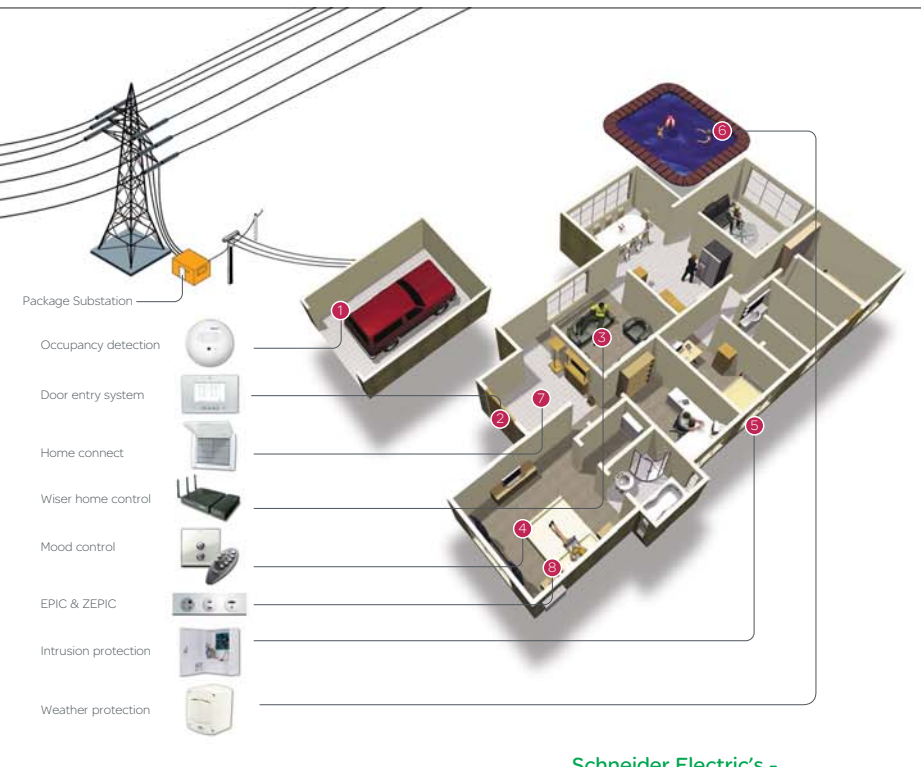

- Clipsal of Australia
- Feller of Switzerland
- LK of Denmark
- Marisio of Chile
- Merten of Germany
- PDL of New Zealand
- Wessen of Russia
- Intraplus of France
- Lexcom of France

Bauhaus enlightened

C - Vivace style and function

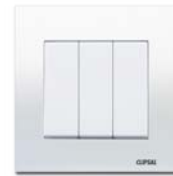

The single most influential design movement of the modern age eloquently expressed. A slim, trim profile, pleasing to the eye, clean and refined, the C-Vivace is a switch and socket set that perfectly compliments the modern lifestyle. With its plain lines, C-Vivace easily matches all interiors. It is a perfect solution for any environment, from the residential market to commercial buildings such as hotels, hospitals, offices...

C - Vivace style and function

Inspired by the simple, elegant minimalism of the supremely influential Bauhaus movement, every piece in this robustly constructed range expresses a pleasing form following function. Unmarred by visible fastenings, the sleek clean lines of C-Vivace present a cool refined touch of style to almost any interior.

Features of the range:

- Clean, Geometrically Balanced Design: The sleek clean lines manifest an art of simple, elegant minimalism. Compliments perfectly with any type of modern interiors.
- Slim Profile: Wall plate is only 8mm slim at the thickest point. The subtle curve further accentuates its slender elegance.
- 16 AX Switches: Handles additional loading. Enables wider application.

Opale

Wiring Accessories with Satin Finish

Clear uncluttered modular design which has been perfected by research symbolises the OPALE range. The OPALE range is easy to install and ready for instant activation. Meeting the highest standards of safety and durability, OPALE switches integrate beautifully into a customers dream space.

opale - A work of art

Opale range has been designed by international designers keeping in mind the local market and its needs. The range gives an exceptional ease & flexibility of use/installation and freedom to the customer.

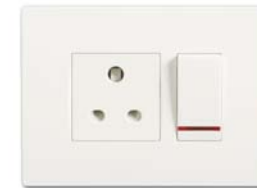

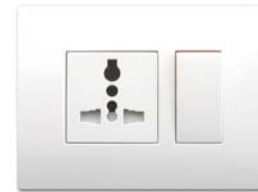

Features:

- New design with more space for wiring
- Better switch feel and sound
- New shutter design in sockets prevents single pin insertion
- Sockets have 2 wire hole per terminal
- Satin finish
- Shrouded terminals
- Captive screws
- Ease of installation
- IP 20 degree of protection
- Child proof sockets
- Smooth operation

The range includes:

- Switches
- Socket Outlet
- Bell Press Switches
- Double Pole Switches
- TV/Telephone/Data Outlet
- Dimmers and Fan Regulators
- Hospitality Range
 - Key Card Switch
 - Shaver Socket
 - Do not Disturb Switch
 - Please Clean Up Switch

The complete range is available in White and Coke Grey

ZENcelo

First Full Flat Switch

In-stan-ding / n 1 The wisdom of being able to distinguish exquisite from extravagant, substantial from superficial, and truly outstanding from merely standing out; 2 The ability to mix and match the best in life without being constrained by hype or stereotype; 3 The self-confidence that comes from being able to live with the approval of one's inner soul rather than conforming to peer-pressure; 4 A refusal to simply follow the crowd. **adj** A state of displaying in-standing characteristics, esp. in relation to behaviour or lifestyle

ZENcelo

First Full Flat Switch

The revolutionary Full Flat Switch

Aesthetically pleasing flat switches are in fact a reality. This revolutionary full flat switch is made reality by the unique Impress mechanism. Clear of all unnecessary lines and protrusions, and harmoniously blend in with every contemporary décor, Zencelo is created to become the next favorite.

Design - It's the way forward

An OUT standing design is An INstanding design A statement of tasteful living, Zencelo is all about style and substance rather than superficial elaboration. You will be impressed with the clear and non-intrusive design, a design marvel itself. It will blend well into any contemporary interior design. Sleek and stylish, it is definitely on class above standing out.

Technology - Turning Imaginations into reality

The unique iso-motion-press mechanism ensures that the switch stay in the same position whether on or off and can be swiftly operated with one simple motion.

COLOUR your imagination

Choose from the signature Schneider Electric White, the basic but always-in-style color, or Silver Bronze the most trendy high gloss tone to accentuate specific interior design needs...

Embrace Quality

Made of corrosion resistant, heat resistant and impact resistant polycarbonate. Data socket with patented integrated shutter. Electrical socket with reinforced-nylon protective shutter. Switches are electric arc encapsulated. Switches tested to 80,000 times. Sockets tested to 15,000 cycles. Durable to last more than a decade. IEC, BS, SS, MS, GB, CCC and/or IS compliant. All RoHS compliant.

Schneider
Electric

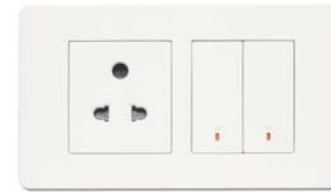

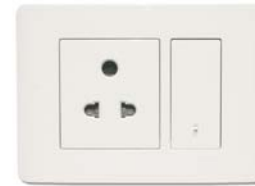

Zencelo India
be in-standing

The Full-Flat form factor has redefined many facets in life. Aeroplane seats, TVs, Mobile phones, Electric stoves... And now switches.

Aesthetically pleasing flat switches are in fact available. But only exclusive to luxurious electronic switches and lighting automation systems. The ZENcelo Full-Flat Switch has been created for the majority who use electromechanical switches. You never imagined that switches could be Full-Flat...

With ZENcelo, luxury is no longer defined by price, but by wisdom - and style.

ZENCelo be in-standing

Features:

- Made of corrosion resistant, heat resistant and impact resistant polycarbonate
- Data socket with patented integrated shutter
- Electrical socket with reinforced-nylon protective shutter
- Switches are electric arc encapsulated
- Philips head screw to fit both flat and cross head screwdrivers
- Switches tested to 80,000 times. Sockets tested to 15,000 cycles. Durable to last more than a decade
- IEC, BS, SS, MS, GB, CCC and/or IS compliant
- All RoHS compliant

Technology - Turning Imaginations into reality:

- Modern and sleek
- A perfect example of "Form and Function"
- Horizontal alignment available for first time in India

Application of the LED technology:

- Longer life than neon
- More stable light
- Pleasing colour and light intensity

Range includes:

- Switches with LED
- Switched Socket Outlet
- Bell Press Switches
- Double Pole Switches
- TV/Telephony/Data Outlet
- Hospitality Range
 - Electronic Key Card Switch
 - Shaver Socket
 - Do not Disturb Switch
 - Please Clean Up Switch

Take control of your moods rather than lights

Mood control means that you can opt for preset lighting effects by one-touch of a button. The trick lies in linking up all the light sources to the mood control system to build a unified dimming network. Mood control can also be used with a remote control device, on which each button is pre-programmed for different scene settings. You can rest in comfort and at the same time bring forth your favorite home lighting scene, be it romantic dining, vivacious partying or serene bedtime reading, all done simply at the push of a button on your remote control device.

Intelligence at your fingertips

The Schneider Electric Ulti & Neo X mood control system creates unmatched wireless integration for your illumination systems that can be easily set up and controlled at the touch of a button.

High precision programming modes and user-friendly interfaces create flexibility to match not only needs but also moods!

ULTI
The Ultimate Switch

Ulti & Neo X

Ulti & Neo X, an innovative, easy and cost-effective lighting control and home automation system that makes homes, office or hotel more stylish and convenient. Based on radio transmission technology, the system allows user to manage their electronic environment using simple hand-held device, from the comfort of their living room (or board room) chair.

The range includes:

Switches and Dimmers:

- The modular design gives you the most flexibility, making replacement and installation of switches a breeze.
- Available in Metal, Crystal Glass, Champagne Gold, Brushed Silver and Pearl White finishes.
- The light touch buttons are backlit that gives a soft gentle glow and lets you find them easily in the dark.

Hand Held remote control:

- It can control any light in the home since all the switches are loaded with our patented wireless receivers.
- Based on radio frequency technology, it gives you the luxury of wirelessly controlling any lighting switches with pre-programmed lighting scenes virtually through the walls.

Free locate switch:

- They enable remote operation of lighting moods.
- They are wire free, battery operated and can be attached to virtually any surface and position including glass and other smooth materials.

Socket Series:

- "impress" is the haute couture mechanical switch and socket series to mix and match with same aesthetics as the Ulti.

Electric

Lighting Control That Delivers

Schneider Electric makes your building sustainable, flexible, and energy-efficient. Our design and support teams provide solutions that blend proven technology with the latest control strategies for reducing energy cost and creating a comfortable, productive environment.

With C-Bus lighting control, you can specify the exact level of performance required to meet green buildings goals.

C-Bus system

The Clipsal C-Bus solution is a high quality, simple to design and install control system suitable for lighting and power control. Clipsal C-Bus is recognised as one of the most flexible and reliable systems. Clipsal C-Bus can be configured without a PC. The C-Bus system is ideal for commercial and residential control applications.

Features of the system:

- In C-Bus there is no master or slave configuration
- Power supply is multiple type. In case one fails the bus is still active
- Standard cat5 cable is used for wiring
- The C-Bus control system has endless possibilities and can be aligned with a wide range of products and developments as they are released into the market

C-Bus switches with Dynamic Labelling Technology:

An Elegant solution to overcome switch labeling in Home/ Building Automation applications

- Easy to setup and change Labelling
- Integrated into the switch to provide aesthetics acceptable to end-users
- Page / Scroll button
- 64 x 128 pixel screen
- LCD Backlit

C-Bus Colour Touch Screen:

The C-Bus Colour Touch Screen provides an elegant wall mounted interface to a Clipsal C-Bus system

- Control from one convenient location
- Can be used to control lighting, Air-Conditioning, Audio-Visual Equipment, and Security Systems via C-Bus
- Can replace a large group of wall switches and dimmers
- Pressing one button can set complete moods and scenes

Electric

Once there were smart homes, now there are **Wiser Homes**.

Wiser
Make your home Wiser with Schneider Electric Wiser Home Control System

Wiser Home Automation is all about flexibility, functionality & luxury brought to your home. It's about adding convenience and security to your lifestyle. Wiser can be tailored to do exactly what you want it to do.
 Wiser Home Control truly integrates your electrical, multi-media and telecommunications technologies into one single user-friendly and interoperable solution. Don't just be smart, but run your home with wisdom.

Scope of the Wiser Home Solutions

Comfort and Convenience

- Lighting Control
- Shutter Control
- Temperature Control
- Scene Control

Peace of mind

- Video Door Entry Systems
- Remote Video Monitoring
- Technical Alarms
- Security Systems
- Remote Diagnostic and Maintenance

Entertainment

- Multi Room Audio/Video Distribution
- Digital Audio/Video Applications
- Media Center Integration

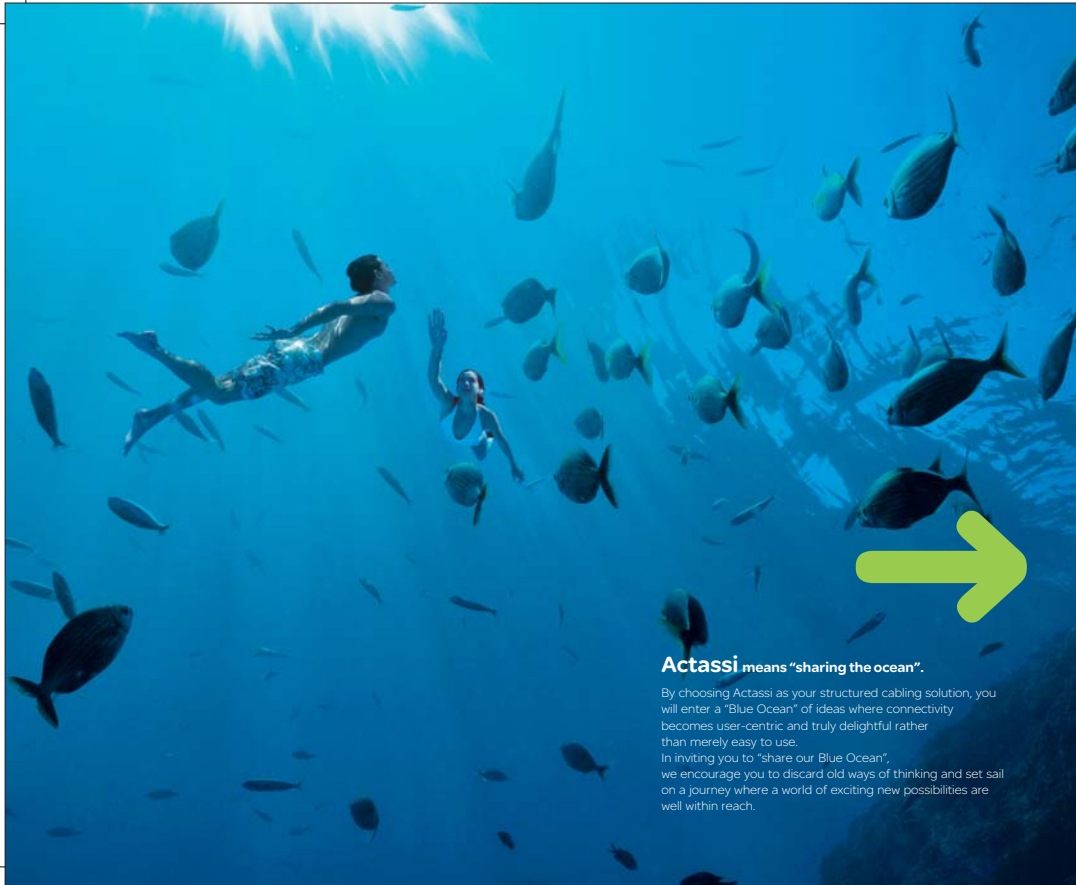

Connected Home and Community

- Remote Web Access
- Dedicated Web Portal

Dedicated applications

- Energy Efficiency
- Health and Elderly Care

Actassi means "sharing the ocean".

By choosing Actassi as your structured cabling solution, you will enter a "Blue Ocean" of ideas where connectivity becomes user-centric and truly delightful rather than merely easy to use.

In inviting you to "share our Blue Ocean", we encourage you to discard old ways of thinking and set sail on a journey where a world of exciting new possibilities are well within reach.

Actassi

At last, there is an end-to-end connectivity that is user-centric rather than only focusing on technology. Actassi consists of Smart Patching Solution, "Tough" Cabling, and Ergo-Aesthetic Terminals that are designed so that users, as well as IT Professionals, will find them easy, useful, and above all, satisfying to use.

Actassi includes

ID-Tracer™ Smart Patching Solution - Your ideal guiding light for patching

Including patch panels, LAN controllers and software, our ID-Tracer™ Smart Patching Solution ensures efficient and reliable remote patching of such large dynamic networks.

F² Cable - The efficient, reliable, invisible hero in your office

Our "Tough" cabling incorporates a patent-pending F² construction that guarantees performance under widely varied installation quality.

ID-3™ F² Patch Cord - The efficient, reliable, invisible hero in your office

With ID-3™ explicit 3-way labeling enabling up to 36 colorful combinations, you'll also never again need to waste valuable time identifying an important patch cord by unplugging cords one by one.

Deskmount Flexiport - Improve work ergonomics by raising connections to new heights

Enabling instant connectivity at individual workstations, our Ergo-Aesthetic Terminals let you dive straight into your work without having to fumble around for patch cords.

Desktop Patch Caddy - Connectivity has never looked more delightful

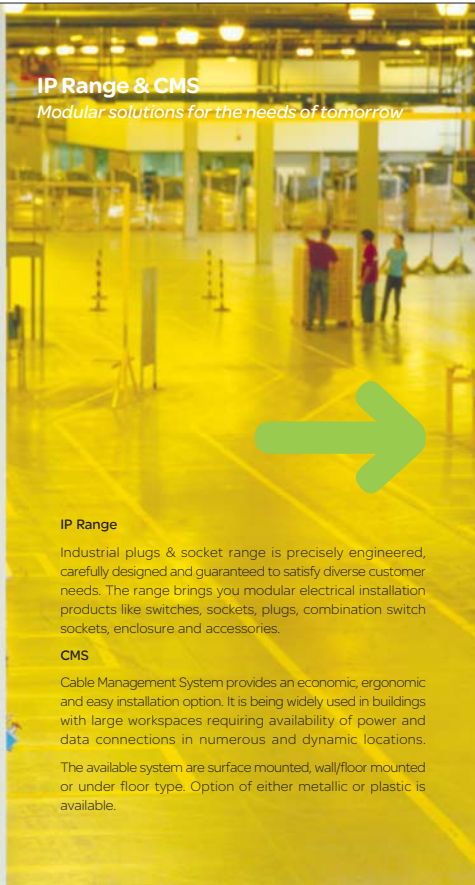

By adding Actassi Desktop Patch Caddies in their rooms, hotels will not only make their guests' lives simpler, they will also brighten up their rooms.

Tabletop Patch Hub - Forget scrubbing around a mess of patch cords and get organised

With our stylish Tabletop Patch Hub enabling easy access to cords in use and concealing those that are not needed, you can say goodbye to back-breaking tangled patch cord problems forever.

IP Range & CMS
Modular solutions for the needs of tomorrow

IP Range

Industrial plugs & socket range is precisely engineered, carefully designed and guaranteed to satisfy diverse customer needs. The range brings you modular electrical installation products like switches, sockets, plugs, combination switch sockets, enclosure and accessories.

CMS

Cable Management System provides an economic, ergonomic and easy installation option. It is being widely used in buildings with large workspaces requiring availability of power and data connections in numerous and dynamic locations.

The available system are surface mounted, wall/floor mounted or under floor type. Option of either metallic or plastic is available.

Features of the IP

- Durable engineering plastics
- Tough enclosure casing
- Double Padlocking
- Auto Closure
- Transparent plastic material
- International protection rating
- Temperature Resistant
- Modular structure

Application

The range is suitable for both indoor and outdoor applications like kitchens, swimming pools, landscape gardens, dairies, exterior walls, server rooms etc. and environmentally challenged locations.

Features of the CMS

The main offer comprises of wall mounted trunking systems and Underfloor raceways.

■ **Wall Trunking**

Wall mounted trunking systems are available in PVC and Aluminium. There are three variants in Aluminium version, Uncoated, Anodised and Powder Coated

■ **Underfloor Raceways**

Underfloor raceways are available in Aluminium type

Application

- ITES sector like Call centres, BPOs, Software development centres
- Corporate offices
- Government buildings
- Manufacturing Plants

They don't call it the *living room* for nothing

Ulti Dimmers / Switches/ Remotes: Control the lighting level in the room and set the mood. Curtain control application to control the blinds / curtains.

Wiring Devices, Zencelo, Neo C Metro: More than one doorway into the room? A switch by every doorway makes sense.

Minder Pro Security System: Will stop any unwanted guests walking off with your home entertainment appliances.

Video Door Phone: Will allow you to answer the front door without missing the program you're watching. Including a monitor will allow you to see the person you're letting in.

EPIC: EPIC - Entertainment Power Information Connectivity A single and simple connectivity solution for laptop computers, digital camera, DVD player, mobile charging, PDA, iPod, TV and more.

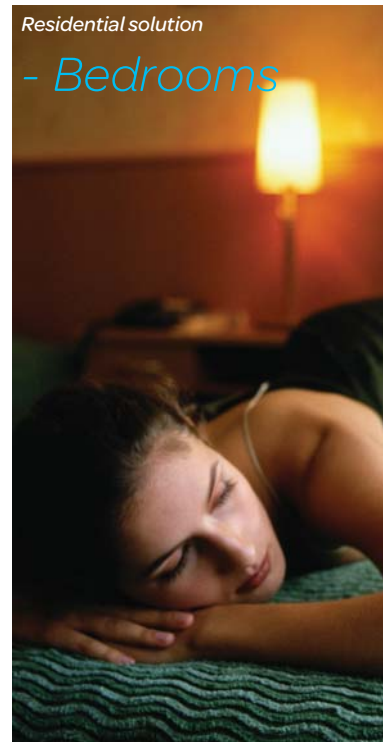

Home Connect: Home Connect Basic is an ideal structured cabling solution for the modern intelligent home the system enables flexible distribution of telephone, data, television and video signals.

Smoke Sensors: Protect your family from any potential fire hazard, particularly with heating or cooling appliances left on indefinitely.

Uninterrupted Power Supply from APC: APC from Schneider Electric presents comprehensive solutions, which are designed for both home and corporate environments, improve the manageability, availability and performance of sensitive electronic, network, communication and industrial equipment of all sizes.

Schneider Electric

Bedrooms your personal space

Wiring Devices: Opale, Zencelo, Neo C metro, Impress - An extra switch or two can go a long way especially when you're tucked into bed and it's your turn to switch the light off.

Occupancy Sensors: What could be more convenient than a light that turns on automatically when you enter a walk-in robe? Best of all, it switches the light off again when you leave.

Ulti Dimmer / Switches/ Hand Held Remote: Can create various moods/ scenes, controlling a group of lights through a single remote.

Mechanical Time Switches: These are intended to enhance comfort and to ensure substantial energy savings. They are reliable and easy to implement and use.

Data Sockets: Check the latest international web news without getting out of bed.

Telephone Socket: Give yourself the option of answering the phone without having to get out of bed.

Smoke Sensors: Protect your family from any potential fire hazard, particularly with heating or cooling appliances left on indefinitely.

EPIC: EPIC - Entertainment Power Information Connectivity A single and simple connection panel for laptop computers, digital camera, DVD player, mobile charging, PDA and more.

Schneider Electric

Kitchen and Dining room

Ulti Dimmer: Dimmer Switch - Perfect for dimming the bright lights during those early morning breakfasts.

Neo C Metro Switches: The more the merrier when it comes to stumbling in at midnight looking for a snack and better if they are illuminated.

Sockets: Opale, Neo, Zencelo. The more points to plug into, the more appliances you can run at the same time.

Occupancy Sensors: What could be more convenient than a light that turns on automatically when you enter the kitchen? Best of all, it switches the light off again when you leave.

Minder Pro Security System: Will stop any unwanted guests walking off with your home entertainment appliances.

Gas leakage alarm: In the event of gas leakage the minder pro system provides annunciation to the user for preventive action.

Thermostat: Temperature control for optimum comfort through c-bus thermostat.

IP range: IP range is precisely engineered carefully designed and guaranteed to satisfy a variety of customer needs such as kitchens, gardens, swimming pools, exterior walls and other environmentally challenged locations.

Schneider Electric

Control the great outdoors

Sunset Switch: A sunset switch is activated by the changes in light. So it will only switch lights on after it gets dark. You don't need to reprogram to allow for changing seasons or daylight savings.

Timer Switch: Popping out the back yard at night to feed the cat? A timer switch will ensure you never accidentally leave the light on all night. As friends leave, the front light can be timed to stay on for a few minutes to ensure they have adequate light to get safely into their car.

Infrascan Motion Detector: A must for any front or back door to welcome friends and deter intruders. It automatically switches on the light as any person or vehicle comes close.

Wiring Devices, Zencelo, Neo C Metro: These essential installations gives a quality lift with it's in geriously designed and sturdily manufactured switches & sockets

Weatherproof Outdoor Power Points: Vacuum the car, blow away the leaves, fire up the party lights or use your electric lawnmower. You'll wonder how you ever did without outside power points!

Motion Sensor: Approaching the garage during the night can be a risky journey unless you have a motion sensor operating the external light.

Schneider Electric

Commercial solution

- Reception

A first impression that's sure to last

Touch Screen Control - C-Bus: Displays pages of graphical items, such as buttons, sliders and images that perform C-Bus related functions when pressed.

Schedule Plus: application software provides a powerful and easy use interface to C-Bus via a standard PC. Schedule Plus has been developed specifically for commercial and industrial applications.

Lux-Level Sensing: Used to measure and regulate lighting. Each unit features a programmable status indicator. Can be used to achieve bank switching or continuous dimming.

Wiring Devices, Zencelo, Neo C Metro: These essential installations gives a quality lift with it's in geriously designed and sturdily manufactured switches & sockets

Occupancy Sensors: What could be more convenient than a light that turns on automatically when you enter in your office? Best of all, it switches the light off again when you leave.
