

About Schneider Electric

Listed in Paris as a CAC 40 company, Schneider Electric is a leading global specialist in energy management offering integrated solutions that makes energy safer, more reliable, efficient and productive in the energy & infrastructure, industry, data centres & networks, buildings and residential markets. With sales of 17.3 billion euro in 2007, the company's 120,000 employees in 102 countries help individuals & organisations make the most of their energy.

Our Installation Systems & Control Division provides solutions that represent the best in lifestyle and innovation for offices, hotels and homes. Specific examples include award-winning products and technologies covering building and home automation, structured cabling, and designer switches and sockets.

ZENcelo
be in-standing

in•stan•ding / ɪnˈstændɪŋ / *n* **1** The wisdom of being able to distinguish exquisite from extravagant, substantial from superficial, and truly outstanding from merely standing out; **2** The ability to mix and match the best in life without being constrained by hype or stereotype; **3** The self-confidence that comes from being able to live with the approval of one's inner soul rather than conforming to peer-pressure; **4** A refusal to simply follow the crowd. □ *adj* A state of displaying in-standing characteristics, esp. in relation to behaviour or lifestyle

THE REVOLUTIONARY FULL-FLAT SWITCH

The Full-Flat form factor has redefined many facets in life. Aeroplane seats. TVs. Mobile phones. Electric stoves... And now switches.

Aesthetically pleasing flat switches are in fact available. But only exclusive to luxurious electronic switches and lighting automation systems. The ZENcelo Full-Flat switch has been created for the majority who use electro-mechanical switches. Even on switches you never imagined can be Full-Flat...

With ZENcelo, luxury is no longer defined by price. But by wisdom - and style.

ENABLED BY A **NEW PHYSICS**

Switch designs are limited by many factors, primarily the switch mechanism. The patented “impress” (iso-motion-press) mechanism ensures the switch dolly remains stationary when it is “on” or “off”, and at the same time occupying a much smaller footprint. Freedom in design has become a reality.

Enabled by impress.mechanism, ZENcelo makes the future flatter than you ever imagined.

COLOUR OPTIONS THAT ARE ANYTHING BUT FLAT

Comes in a chameleon-like palette of colours. Seamlessly blends with even the most highly stylised contemporary setting.

Standard fascias include the timeless white and the zen-attuned silver bronze.

INDICATE

THE CURRENT
STATUS

Form does not sacrifice function. Knowing when the Full-Flat switch is turned on is not taken for granted.

The patent-pending “Ondicator” changes to marigold when turned “on”. And blends into the same colour as the dolly when “off”.

Meticulously designed to the finest detail – Not only for looks, but also for practicality.

EMBRACE QUALITY

Made of corrosion resistant, heat resistant and impact resistant polycarbonate.

Data socket with patented integrated shutter.

Electrical socket with reinforced-nylon protective shutter.

Switches are electric arc encapsulated.

Philips head screw to fit both flat and cross head screwdrivers.

Switches tested to 80,000 times. Sockets tested to 15,000 cycles. Durable to last more than a decade.

IEC, BS, SS, MS, GB, CCC and/or IS compliant.

All RoHS compliant.
